## Community Experts Needed

Wondering how you can get involved & help your community? Can you help us remember where we came from? Do you have old photos, maps, oral/written histories, or studies from around the Hāmākua CDP planning area? Please share your Hāmākua information with us! We are compiling a **Community Profile** that will strongly ground the CDP in Hāmākua's history, local knowledge and culture, past planning efforts, and existing conditions. We want to create a complete picture of where we've been and how we got here in order to plan our future. We need your help to do this!

Please check out our website under the folder "About the Hāmākua CDP Planning Area" to see what we've compiled so far & to get ideas of what you might be able to contribute.

Any original documents you share can be scanned and returned.

***Mahalo for helping us honor the past as we plan for the future!***
