

Hāmākua Community Development Plan

CDP Update

January 2012

Check out the Hāmākua CDP Strategies Under Consideration Booklet!

At November's CDP Steering Committee meeting, Steering Committee members provided the CDP Team with great advice about how to improve the **Strategies Under Consideration Booklet**, and the CDP Team listened. The Team has spent the last several weeks working to make improvements in formatting, content, and visual aids to help the booklet be more concise, easier to understand, and more visually interesting. The final version of the booklet is now available online at www.hamakuacdp.info, and in hard-copy format at the locations on the attached sheet.

Please take some time to check out the booklet and familiarize yourself with the direction the CDP is headed. We will be looking for community guidance at the upcoming Regional Workshop where issues raised at the end of each booklet chapter will be discussed and possible scenario planning will be performed. So stay informed and be ready to attend the Regional Workshop in the Spring of 2012.

Join us for the next
Steering Committee Meeting:
Tuesday, January 10, 2012

5:00-7:30 pm

**in Pepe'ekeō at the
Kula'imano Community Center**

(dinner will be provided)

Likely Agenda Items Include:

- *Review of Revised Booklet*
- *Regional Workshop Planning Update*
- *Discussion of Town Level Land Use and Growth Management Strategies*

So What is this Strategies Under Consideration Booklet?

The purpose of the booklet is to introduce the community to the strategies being developed for the CDP. These strategies are based on the Values and Vision input received from the community at the beginning of the process, information from the Community Profile, additional research done by the planning team, and consultation with community stakeholders in the planning area.

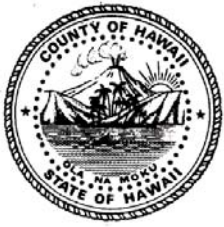

The booklet is also intended to prepare the community for an upcoming **Regional Workshop**, which will be the opportunity for the community to gather, and evaluate and give feedback on the proposed strategies.

Please note, this booklet is not a draft of the community development plan itself, but it demonstrates ideas and strategies that will likely lead to goals, objectives, strategies, actions, and policy recommendations that may ultimately be written into the plan.
