

Ka'ū Community Development Plan

Nū Hou/Update ————— October 2009

The Ka'ū CDP Will Map YOUR Future

Worried about jobs? Tired of driving to Hilo or Kona? Concerned about access for fishing and hunting? Want to protect the coastline and mountains? Need more activities and opportunities for your kids? Wondering how to preserve Ka'ū's unique lifestyle?

If so, the Ka'ū Community Development Plan (CDP) is a once in a lifetime opportunity. This is not another university study or good faith (but fruitless) effort. It will map the future of economic development, recreation, natural resource management, land use, and public services in Ka'ū. And it will become law.

The following events will be held at the Nā'ālehu Community Center:

★ Last Summit, Oct. 17, 10-noon:

Community is again invited to review data gathered for Ka'ū's community profile and see what it says about opportunities for Ka'ū's future. The Summits are informal, comfortable open houses. Come talk story – and enjoy some homemade chili and rice.

★★ If you do one thing, come to at least 1 hour of the *Planning Charrette*, Nov. 16-21:

The CDP will be created during this week. Help plan, see maps of future possibilities and voice feedback. NOW is the time to plan, not later. Enjoy raffles and food. See schedule at www.kaucdp.info, or call 961-8137 (Ron), 936-2189 (Eldridge) or 217-6893 (Nālanī).
