

# Ka`u Community Development Plan Community Values and Vision Survey

The foundation of the Ka`u Community Development Plan will be the Ka`u community's shared values and vision for the future. Those values and vision will be identified through small group "talk story" meetings and from this survey.

Please attend one of the many "talk story" meetings if you can. They are a great way to build community and to generate new ideas. However, if you're unable to attend one of the meetings, please complete this survey. You may complete the survey below and send it to the Hawaii County Planning Department or complete it online at:

<http://www.hcrc.info/community-planning/community-development-plans/kau/plan-input/survey/>

**What three things do you LOVE about Ka`u?** Answers to this question help identify what people value most about Ka`u and want to preserve for the future.

1.
2.
3.

**What would you like to SEE in Ka`u in 20 years?** Answers to this question help identify people's vision for the future of Ka`u. Imagine that your most cherished ideas, dreams, and expectations for Ka`u have been realized 20 years from now. What would Ka`u and the community you live in look like? What facilities and services would you like to see? Where would you and your ohana live? What would you do with your free time? How would you make a living? Where would you shop? How would your children, grandchildren, and kupuna spend their time?

1.
2.
3.

**What can you DO to create the Ka`u you'd like to see in 20 years?** Answers to this question help identify how people are willing to invest their time and energy toward realizing their vision for Ka`u. Consider experience or knowledge you can share with the community, issues you'd like to learn more about, community projects you'd like to work on, and/or other ways to contribute.

1.
2.
3.

**Optional:** So that we can keep you informed of future Ka`u CDP activities and opportunities to provide input and support, please provide your contact information below. Your survey responses will remain anonymous when they are compiled.
